"Serving the Stuttering Community"

SOLVING THE STUTTERING PUZZLE

I can't think of anything more exciting. For years I used to stutter. I spent the first 30 years of my life struggling with stuttering. Then I recovered. And now, because I live in the 21st century, I can do something with this information. I can coach people the world over on how to recover.

All it takes is a phone. Or a computer with a broadband connection.

I do coaching sessions with people in many countries including America, Australia, Bolivia, Bulgaria, England, and Wales.

And if we're using Skype with video, it's like we're in the same room.

The goal of my coaching sessions is to help you understand what your stuttering and blocking is really all about and then work with you to defeat it. My coaching sessions last an hour or more and take place by phone or over Skype.

CHANGING THE SYSTEM

Most people view their stuttering incorrectly...as if it were a sprained wrist or a broken leg.

Wrong.

Chronic stuttering/blocking is a living system that involves all of you. And like other living systems, it tries to perpetuate itself.

I show you how to break down your stuttering system into its individual components. We identify how these components reinforce one another. And we build an understanding of how to create a new system that promotes freedom of speech.

I also alert you to other resources, such as those provided by Bob and Jason.
